

Air Transport of Radioactive Materials Training

Course Duration: 8 hours

Retrain Frequency: 2 years

Course Topics:

- Classification
- Proper Shipping Names
- Packaging
- Radiation-Contamination Limits
- Marking and Labeling
- Documentation
- Variations
- Limitations
- Shipping Exercises
- Examination

Prerequisites:

NRC/DOT Radioactive Waste Packaging,
Transportation and Disposal Training

or

Equivalencies approved by the
EnergySolutions Training

Available Format:

Classroom 8 hours – \$895

Online – \$525

Course Description

This course is directed solely towards the transportation requirements for the shipping of radioactive materials by the International Air Transport Association (IATA) Dangerous Goods Regulations (DGR) and DOT (49 CFR). The presentation assumes knowledge of domestic regulations for radioactive materials and concentrates on the differences. Materials will be provided to facilitate completing the course.

AAHP has awarded eight (8) CEUs for this class.

Successful participants receive a certification stating that the training meets the requirements of 49 CFR 172, Subpart H and IATA, Section 1.5.

Who Should Attend?

Employees required to certify shipments of radioactive materials are in compliance with DOT's 49 CFR and IATA's Dangerous Goods Regulations for domestic and/or international air transport.

Online Training Option

You will need a current copy of the IATA Dangerous Goods Regulations to complete the online course. We have these available for purchase.
