

## EnergySolutions Sells PP&T Division, Retains Commercial Training

It was recently announced that EnergySolutions sold its Projects, Products and Technology Division (DOE and International) to WS Atkins plc, a UK listed design, engineering and project management consultancy company. The previous EnergySolutions Performance Strategies Training Department was part of the Atkins sale, since a lot of training was conducted for the DOE.

Mark Lewis has been tasked at reestablishing the EnergySolutions Commercial Training as well as the Broker/Shipper Program. Mark had initially established the commercial training in the early '80s and instructed the classes for many years before taking on regulatory affairs, business

development, and cask management positions. Fortunately, EnergySolutions was able to retain James Leonard as the commercial senior training instructor. James has been conducting our commercial DOT, NRC, processing, and disposal training for 13 years.

Unfortunately, EnergySolutions was not able to retain the previous administrative support, such as Nancy Strong, Training Coordinator, who is now with Atkins.

The Training Coordinator position and administrative support will be filled sometime in the future; in the interim please contact Mark or James by way of the following contact information if interested in our on-site training classes or other commercial training services.

**MARK LEWIS**  
 Director, Broker &  
 Training Programs  
[mslewis@energysolutions.com](mailto:mslewis@energysolutions.com)  
 (803) 758-1827

**JAMES LEONARD**  
 Sr. Nuclear Facility  
 Training Specialist  
[jleonard@energysolutions.com](mailto:jleonard@energysolutions.com)  
 (803) 758-1876

Registration for our open-enrollment classes at the different hotel venues can still be made on our training website: [www.energysolutionstraining.com](http://www.energysolutionstraining.com)

## 2016 Scheduled Commercial Training Schedule
