

Air Transport of Radioactive Materials Training

Course Description

This course is directed solely towards the transportation requirements for the shipping of radioactive materials by the International Air Transport Association (IATA) Dangerous Good Regulations (DGR). The presentation assumes knowledge of domestic regulations for radioactive materials and concentrates on the differences. AAHP has awarded six (6) CEUs for this class. Materials will be provided to facilitate completing the course.

Successful participants receive a certification stating that the training meets the requirements of 49 CFR 172, Subpart H and IATA, Section 1.5.

Who Should Attend?

Employees required to certify that shipments of radioactive materials are in compliance with DOT's 49 CFR and the IATA Dangerous Goods Regulations for domestic air and international transport.

Course Duration: 8 hours

Retrain Frequency: 2 years

Course Topics:

- Classification
- Proper Shipping Names
- Packaging
- Radiation-Contamination Limits
- Marking and Labeling
- Documentation
- Variations
- Limitations
- Shipping Exercises
- Examination 80% or Better

Prerequisites:

NRC/DOT Radioactive Waste Packaging,
Transportation and Disposal Training
or

Advanced Radioactive Material Shipper
Certification Training

Equivalencies must be approved by the
EnergySolutions Training Manager.

Available Format:

Classroom – \$695

Online – \$395
