SUPPLEMENTARY INFORMATION:

I. Background

The NRC published NUREG/BR-0204, Revision 3, "Instructions for Completing the NRC's Uniform Low-Level Radioactive Waste Manifest," on July 2, 2020 (85 FR 39936), including revisions to NRC Forms 540, 541, and 542. However, following several requests to delay implementation, the NRC announced on September 30, 2020 (85 FR 61576) that it was postponing implementation of NUREG/BR-0204, Revision 3 and the revised NRC forms until further notice. The NRC indicated that licensees should continue to use NUREG/BR-0204, Revision 2 and the versions of NRC Forms 540, 541, and 542 that were renewed in January 2020, or equivalent, as defined in NRC's regulations.

II. Discussion

NUREG/BR-0204, Revision 3, provides guidance on completing NRC Forms 540, 541, and 542 (*i.e.*, the NRC's Uniform Low-Level Waste Manifest) as required by part 20 of title 10 of the *Code of Federal Regulations* (10 CFR), appendix G. The NRC revised NUREG/BR-0204 and NRC Forms 540, 541, and 542 to address stakeholder feedback since the publication of Revision 2 of NUREG/BR-0204 (ADAMS Accession No. ML071870172). The final NUREG/BR-0204, Revision 3 and the NRC's comment resolutions are available in ADAMS under Accession Nos. ML20178A433 and ML19214A186, respectively.

This notice herein announces the revisions to the NRC Form 540, 541, and 542 are available for implementation. Note, the definitions section 10 CFR part 20, appendix G, states that "Licensees need not use originals of these NRC Forms as long as any substitute forms are equivalent to the original documentation in respect to content, clarity, size, and location of information." Licensees should contact the receiving facility for waste shipments to Agreement States to determine if Agreement State regulators require the use of an equivalent form consistent with their State regulatory program.

Dated: June 22, 2021.

Uranium Recovery, and Waste Programs,
