

## RCRA Requirements for Satellite Accumulation Areas

### Course Description

This course is designed for personnel who utilize Satellite Accumulation Areas for the accumulation of RCRA Hazardous Waste. Participants will learn:

- Marking requirements for containers within Satellite Accumulation Areas
- Importance of segregation of incompatible wastes
- Management and inspection of containers within Satellite Accumulation Areas
- Pollution Prevention techniques and requirements
- Responsibilities for the use of Satellite Accumulation Areas
- Potential record keeping requirements
- Interaction with regulatory agencies

Materials will be provided to facilitate completing the course.

Successful participants receive a certification stating that they completed the course.

### Who Should Attend?

Personnel that generate RCRA regulated waste and place it into a pre-approved container within a Satellite Accumulation Area.

**Course Duration:** 4 hours

**Retrain Frequency:** 0 years

#### Course Topics:

- Initial Satellite Accumulation Requirements including:
  - Marking containers
  - Management and Inspection of containers
  - Potential record keeping requirements
- Users Responsibilities including:
  - Pollution Prevention
  - Properly managing unknown or unmarked containers
  - Regulatory Agency interaction
  - Notification requirements
- Examination 80% or Better

#### Prerequisites:

None

#### Available Format:

Classroom – \$250
